CORPORATE SPONSORSHIP
BENEFITS PROGRAM

We are excited to share the following Health Outreach Partners (HOP) corporate sponsorship benefits with your company.

HOP believes everybody has intrinsic human value and deserves dignity and respect. HOP helps many forgotten and devalued groups, honoring and elevating these individuals by putting them front and center in our work. We also listen deeply to the people working with them on the front lines of healthcare, who are empowered and strengthened in this work through HOP. Helping marginalized, vulnerable, and underserved people to get access to healthcare transforms their lives and makes our society more equitable. These are core values that launched HOP over 45 years ago, and remain core values driving our work everyday.

The changes we want to see in society require partnerships with many kinds of organizations, including companies like yours. By sponsoring HOP’s work, your company shows its commitment to these same values, you help people gain access to the healthcare they need, and you help your company gain recognition for this work in the greater community. HOP offers many ways for your company to connect with your audience, our network, and the greater health safety-net community. We hope you will become a HOP sponsor today!
